Rapture of the Year.

Rapture of the Year.

While skies glint bright with bluest light.
Through clouds that race o'er field and town.

And leaves go dancing left and right
And orchard apples tumble down;
While school-gris sweet, in lane or street,
Lean 'gainst the wind and feel and hear
lis glad heart like a lover's beat—
So reigns the rapture of the year.

While birds in scattered flight are blown While birds in scattered light as a Aloft and lost in dusky mist, And irvant boys send home alone 'Neath folics of gold and amethyst; While twilight falls, and Echo calls, Across the haunted atmosphere, With lowit sweet laughs at intervals—Sc, reigns the rapture of the year,

Then hol and heyl and whoop-hooray!
Though winter clouds be looming,
Remember a November day
Is merrier than mildest May,
With all her blossoms blooming,

WANT STATE TO TAKE HOLD

Make Movement to Co-operate Interests of Three Societies in Same Movement.

An important meeting of the commit tee from the board of the Virginia Sanstorium for Consumptives and others interested in this charity was held yeserday afternoon at 2 o'clock. The meetng was called to review and ascertain the status and present needs of the saclety, and in making such recommendations as they deem best suited to promote its purposes. The discussion took the line of the best

method, or any that is desirable, of cooperating the efforts of the Virginia Sanatorium of Virginia, the Associated Charities of Richmond, and the Medical Society of Virginia, into one movement and for the same end. It was contended that there is little use of three societies working for the same end and along different lines. Such effort would only result in conflict, whereas harmony is necessary to the perfect fulfillment of the plans for the relief of tuberculesis patients. It is now the object of the society to incite harmony among the three societies, to bring about a co-operative effort, in 'order that the Legislature might be overtured to take the matter in hand and erect a State sanatorium. It seemed from the discussions that the best means of treating indigent tubercular pasients can be effected only through State sid. It was stated at the meeting that Dr. Paulus A. Irving had been assured of the aid of the Legislature, and that he is now preparing un ties of Richmond, and the Medical Society ture, and that he is now preparing un appeal for its financial aid. Property for

by Mr. D. W. R. Read, secretary, were also adopted by the committee:
Your committee deems it highly advisable that the institution should be set in operation as soon as possible, and that, in view of the lateness of the season and the impracticability of erecting any adequate new structures this year, the committee of the association inspect two cottages adjoining the sanatorium site, and, the same being found applicable for the purposes of the company, the secretary be authorized to negotiate and conclude a purchase of the said cottages and surrounding grounds at a valuation to be fixed by disinterested valuers, not exceeding two thousand dollars, provided the owner be willing to accept at least one-half the purchase money in bonds of the association, and that these cottages, if purchased, be fitted and equipped to accommodate about thirty patients.

As a dining room, your committee recommends the purchase and erection of a suitable canvas tent, with temporary kitchen, and the use of certain rooms tendered free by Mr. D. W. R. Read as temporary administration quarters.
